

## SPECIAL EVENTS

# WHAT IS FLIGHT CLUB?

Flight Club is an energetic social experience that pairs entertainment with an unparalleled food and beverage program for a super-charged gaming experience like no other.

Groups of 13 or more can get together for an occasion truly worth celebrating. Flight Club is the ultimate destination for team outings, networking events, holiday parties, bachelorette parties and more!

## WHAT IS SOCIAL DARTS?

It's what we do! It's darts, but revolutionized. We've taken the traditional game and developed an engrossing, multiple, technology driven experience for players of any skill level.

# LET'S PLAY

Everything about Flight Club is designed with your party in mind. Our ground-breaking technology enables gameplay to scale with your group to seamlessly match, score and connect players across any number of dart boards in the venue.

# GAMES

## GAME 1

It's a twist on the Classic 301! You start with 180 points and throw your dart anywhere on the board. The numbers you hit are subtracted from your score in a race against the other players to reach exactly zero (0).

## GAME 2

Players strive to hit as many bullseyes as they can in 6 rounds to earn a Quack Shot. Aim carefully because if your dart hits too far off target you'll receive negative points! The player with the most points wins!

## GAME 3

Each player is given a target number to throw their darts at. Hitting your number 3 times turns you into a killer, allowing you to target other player's numbers to knock them out!

## GAME 4

Based on the board game with the same name, Snakes and Ladders each ring of the dartboard equals a number on the dice. Ladders will uplift players while snakes lower the players on the board. First to the finish line wins.

## GAME 5

Players compete by hitting their Donkey's number to race them over the finish line. Players attack other players to effect their game progress. There can only be one champion!

## GAME 6

This game is similar to Around the World. Gameplay progresses around the board, hit the target number to score points. The target number & available points increase each round. The player with the most points after 8 rounds wins!
